AWARDS:

We would appreciate having a statement about your philosophy and work as an artist—either general or something specific about the piece(s) selected for this year's May Show to aid us in the preparation of gallery talks and in the release of publicity materials. For more space, use the back of this sheet.

My paintings are formal structures with an ordered poetic content. I am challenged by confronting the age old problems of making a painting. I compose to match shape to scale, inner contour to edge, figure to ground, surface to depth, part to whole and opposing hollows and solids. The type of stuff most painters think about while painting. But the work should not be addressed on formal terms alone. Painting is a physical language that speaks directly to the senses. So I don't think it is impossible for the viewer to begin guessing at the poetic point of my work.
